

1 HOUSE BILL NO. 2104  
 2 AMENDMENT IN THE NATURE OF A SUBSTITUTE  
 3 (Proposed by the House Committee on \_\_\_\_\_  
 4 on \_\_\_\_\_)  
 5 (Patron Prior to Substitute--Delegate Bourne)

6 A BILL to amend and reenact § 46.2-873 of the Code of Virginia, relating to school crossing zones.

7 **Be it enacted by the General Assembly of Virginia:**

8 **1. That § 46.2-873 of the Code of Virginia is amended and reenacted as follows:**

9 **§ 46.2-873. Maximum speed limits at school crossings; penalty.**

10 A. For the purposes of this section, "school crossing zone" means an area located within the  
 11 vicinity of a school at or near a highway where the presence of children on such school property or going  
 12 to and from school reasonably requires a special warning to motorists. Such zones are marked and operated  
 13 in accordance with the requirements of this section with appropriate warning signs or other traffic control  
 14 devices indicating that a school crossing is in progress.

15 B. The maximum speed limit shall be ~~twenty-five~~ 25 miles per hour between portable signs, tilt-  
 16 over signs, or fixed blinking signs placed in or along any highway and bearing the word "school" or  
 17 "school crossing." Any signs erected under this section shall be placed not more than ~~600~~ 750 feet from  
 18 the limits of the school property or crossing in the vicinity of the school. However, "school crossing" signs  
 19 may be placed in any location if the Department of Transportation or the council of the city or town or the  
 20 board of supervisors of a county maintaining its own system of secondary roads approves the crossing for  
 21 such signs. If the portion of the highway to be posted is within the limits of a city or town, such portable  
 22 signs shall be furnished and delivered by such city or town. If the portion of highway to be posted is  
 23 outside the limits of a city or town, such portable signs shall be furnished and delivered by the Department  
 24 of Transportation. The principal or chief administrative officer of each school or a school board designee,  
 25 preferably not a classroom teacher, shall place such portable signs in the highway at a point not more than  
 26 ~~600~~ 750 feet from the limits of the school property and remove such signs when their presence is no longer

27 required by this section. Such portable signs, tilt-over signs, or fixed blinking signs shall be placed in a  
28 position plainly visible to vehicular traffic approaching from either direction, but shall not be placed so as  
29 to obstruct the roadway.

30 C. Such portable signs, tilt-over signs, or blinking signs shall be in a position, or be turned on, for  
31 ~~thirty~~ 30 minutes preceding regular school hours, for ~~thirty~~ 30 minutes thereafter, and during such other  
32 times as the presence of children on such school property or going to and from school reasonably requires  
33 a special warning to motorists. The governing body of any county, city, or town may, however, decrease  
34 the period of time preceding and following regular school hours during which such portable signs, tilt-  
35 over signs, or blinking signs shall be in position or lit if it determines that no children will be going to or  
36 from school during the period of time that it subtracts from the ~~thirty-minute~~ 30-minute period.

37 D. The governing body of any city or town may, if the portion of the highway to be posted is within  
38 the limits of such city or town, increase or decrease the speed limit provided in this section only after  
39 justification for such increase or decrease has been shown by an engineering and traffic investigation, and  
40 no such increase or decrease in speed limit shall be effective unless such increased or decreased speed  
41 limit is conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs required by this  
42 section.

43 E. The governing body of a county within Planning District 8 may, if the portion of the highway  
44 to be posted is within the limits of such county, increase or decrease the speed limit provided in this section  
45 only after justification for such increase or decrease has been shown by an engineering and traffic  
46 investigation, and no such increase or decrease in speed limit shall be effective unless such increased or  
47 decreased speed limit is conspicuously posted on the portable signs, tilt-over signs, or fixed blinking signs  
48 required by this section.

49 F. The City of Virginia Beach may establish school zones as provided in this section and mark  
50 such zones with flashing warning lights as provided in this section on and along all highways adjacent to  
51 Route 58.

52 G. Any person operating any motor vehicle in excess of a maximum speed limit established  
53 specifically for a school crossing zone; when such school crossing zone is (i) indicated by appropriately

54 placed signs displaying the maximum speed limit and (ii) in operation pursuant to subsection B of this  
55 section shall be guilty of a traffic infraction punishable by a fine of not more than \$250, in addition to  
56 other penalties provided by law.

57 H. Notwithstanding the foregoing provisions of this section, the maximum speed limit in school  
58 zones in residential areas may be decreased to ~~fifteen~~ 15 miles per hour if (i) the school board having  
59 jurisdiction over the school nearest to the affected school zone passes a resolution requesting the reduction  
60 of the maximum speed limit for such school zone from ~~twenty-five~~ 25 miles per hour to ~~fifteen~~ 15 miles  
61 per hour and (ii) the local governing body of the jurisdiction in which such school is located enacts an  
62 ordinance establishing the speed-limit reduction requested by the school board.
